FOREIGN TRADE STATISTICS BULLETINS: SERIES A, B, and C

- **Series A - Overall trade by countries** (quarterly) provides an overall picture of the total trade of O.E.C.D. countries (without commodity breakdown) analysed into flows with countries and country groupings of origin and destination.
  The analysis is in terms of a standard geographical classification, in tables covering the latest available four years, twelve quarters and sixteen months. A monthly supplement brings the tables up to date in between successive quarterly issues.
- **Series B - Trade by commodities, Analytical abstracts** (quarterly) is designed for a general analysis of the pattern of trade flows of O.E.C.D. countries, individually and in groups, by main commodity categories and partner areas and countries. Both the commodity categories and the partner countries and areas are defined in terms of standard nomenclatures, but for each reporting country only those which are significant are shown. The series is issued in six booklets, each covering several countries, in the order of availability of the basic data.
- **Series C - Trade by commodities, Market summaries** (half-yearly) provides detailed information on the trade of O.E.C.D. countries by main commodities and partner countries. The series appears in three volumes, respectively covering trade by major commodity categories (values only) and by S.I.T.C. groups, sub-groups and items (quantities and values, one volume for exports and one for imports).
  Data are arranged in synoptic tables, bringing together the countries comprising the market for a given commodity, as outlets and/or sources of supply, both within the O.E.C.D. area and in trade between O.E.C.D. countries and the rest of the world.

MAIN ECONOMIC INDICATORS

This monthly publication, based on the most up-to-date techniques of tabular and graphical presentation, is designed to provide at a glance a picture of the most recent changes in the economy of the O.E.C.D. countries, and a collection of international statistics on the economic developments affecting the O.E.C.D. area in the past few years.

The indicators selected cover national accounts, industrial production, deliveries, stocks and orders, construction, retail sales, labour, wages, prices, domestic and foreign finance, interest rates, trade and payments. Quarterly supplements provide additional material on consumer prices and industrial production.

STATISTICAL YEARBOOKS

- **Historical Statistics** (every two years) bring together, in two volumes, quarterly and monthly data over the last decade for all series shown in *Main Economic Indicators* and its *Industrial Production* supplement, respectively.
  In addition, both volumes show annual data over a longer time-span, and a selection of calculated rates of change. In between two issues they are kept up to date by supplements inserted into current issues of *Main Economic Indicators.*
- **National Accounts of O.E.C.D. countries** (annual) shows for each O.E.C.D. country and for major groups of Member countries the main national accounting aggregates, in a standardized form, over the last decade (occasionally, over a longer time-span).
  In addition, special tables contain various analytical measurements, such as growth triangles, price and volume indices, and ratios of selected aggregates to totals.
- **Labour force statistics** (annual) gives an overall view, on the basis of standardized data, of the manpower and employment situation over the last decade in the O.E.C.D. countries.
  Data are shown, in particular, for total population, components of population changes, age structures, total and civilian manpower, unemployment, and employment (both in total and with a breakdown by activity and professional status and—in the case of wage and salary earners—by industry).

O.E.C.D. ECONOMIC SURVEYS

The Organisation examines the economic situation of each Member or associated country every year, and considers whether the policies being pursued are effectively contributing to economic growth, high employment and internal and external balance and are in keeping with the legitimate interests of the other countries.
Findings are published in the **Economic Surveys** which provide, in addition, a background analysis of developments in demand, production, wages and prices, conditions in the money and capital markets and the balance of payments, together with broad forecasts for the year ahead.

JAN.-DECEMBER 1970 JAN.-DÉCEMBRE

INTRODUCTION

Series B of the O.E.C.D. Bulletins of Foreign Trade Statistics is designed for the analysis of the pattern of trade flows between O.E.C.D. Member countries (1) and countries or country groupings of origin and destination, on the basis of the *Standard International Trade Classification (S.I.T.C.) Revised**.

The Series appears in six quarterly booklets, showing the latest trade information available for each reporting country, in the order of receipt of the basic data by the O.E.C.D. Secretariat. Data are shown in cumulative (year-to-date) form, against comparable figures for one or two back years.

Each reporting country's trade is analysed by S.I.T.C. Sections and relevant Divisions, Groups and Sub-Groups, with a breakdown by major partner countries and areas (2). The selection of both commodities and partner countries is based on the structure of the reporting country's trade, with due regard to the requirements of efficient data processing. Where available, volume and average value indices by commodity categories are shown in an annex.

A similar analysis of the value of trade is presented in Booklet 6 of this Series for groups of O.E.C.D. Member countries (O.E.C.D.-Total, O.E.C.D.-Europe, E.E.C. and E.F.T.A.).

Unless otherwise stated in the *remarks* to individual reporting countries, the following general definitions apply throughout:

a) Values are expressed in million United States dollars and relate to declared transaction values (imports c.i.f., exports f.o.b.). The conversion factors from national currencies into United States dollars are indicated at the head of each title page and relate in principle to International Monetary Fund parity rates;

b) Data relate to *special trade* as defined by the Economic and Social Council and the Statistical Commission of the United Nations;

c) Data cover *all goods which add to, or subtract from, the resources of a country as a result of their movement into or out of the country***, which implies in particular that:

- State trading, commercial transactions in military equipment and supplies, foreign aid transactions, improvement and repair trade, transactions in new ships and aircraft, electric energy and gas, and sea products landed direct from the high seas are *included* in the statistics;
- direct transit trade, temporary imports and exports, transactions in second-hand ships and aircraft, stores and bunkers for ships and aircraft, monetary items, and industrial gold, if the metal content accounts for 80 per cent or more of the total value, are *excluded* from the statistics. Minor transactions may also be excluded;

d) Commodities and commodity categories are defined and classified according to the *Standard International Trade Classification (S.I.T.C.) Revised**. But owing to lack of space it has been necessary to abbreviate some of the descriptions shown in the tables;

e) The geographical classification refers to countries of origin/consumption (last known destination). The statistical territory of these countries is defined in the O.E.C.D. Geographical Nomenclature at the end of the first volume in this series;

f) For some countries divergences may be found when comparing totals derived from different levels of the classification. This is due to the fact that certain data are treated as confidential mostly at lower levels of aggregation.

(1) Data are also shown for Yugoslavia, which is associated in certain work of the O.E.C.D.

(2) See page 4 for the composition of partner areas.

INTRODUCTION

La Série B des Bulletins du Commerce Extérieur de l'O.C.D.E. permet d'analyser, sur la base de la *Classification Type pour le Commerce International (C.T.C.I.) Révisée**, la structure des échanges commerciaux des pays Membres de l'O.C.D.E. (1) par pays ou zones partenaires.

Cette Série comporte six fascicules par trimestre, donnant les dernières informations disponibles pour chaque pays déclarant, dans l'ordre de la réception des données de base par le Secrétariat de l'O.C.D.E. Les données sont publiées sous forme cumulative pour l'année en cours, en regard des chiffres comparables d'une ou deux années précédentes.

Le commerce de chaque pays déclarant est analysé par section de la C.T.C.I. ainsi que selon les divisions, groupes et sous-groupes significatifs, avec une ventilation, par principaux pays et zones partenaires (2). Le choix des produits et des pays partenaires est déterminé d'après la structure du commerce du pays déclarant, compte tenu des exigences d'une exploitation automatique satisfaisante (3). Les indices de volume et de valeur moyenne par catégories de produit, lorsqu'il en existe, figurent en annexe aux tableaux.

Le fascicule 6 de cette Série présente de la même façon une analyse de la valeur du commerce pour les groupements de pays Membres de l'O.C.D.E. (O.C.D.E.-Total, O.C.D.E.-Europe, C.E.E. et E.F.T.A.).

Sous réserve des *observations* relatives à chaque pays déclarant, les définitions générales suivantes s'appliquent :

a) Les valeurs sont exprimées en millions de dollars des États-Unis, sur la base des valeurs de transaction déclarées (importations c.a.f., exportations f.o.b.). Les facteurs utilisés pour convertir les valeurs nationales en dollars des États-Unis sont indiqués sur la page titre de chaque pays et correspondent en principe au taux de change paritaire du Fonds Monétaire International;

b) Les chiffres concernent le *commerce spécial,* tel qu'il est défini par le Conseil Économique et Social et la Commission Statistique des Nations Unies;

c) Sont couverts *tous les biens qui, du fait de leur entrée ou de leur sortie, s'ajoutent aux ressources d'un pays ou les diminuent***. Il en résulte notamment les inclusions et les exclusions suivantes :

- Sont *inclus* dans la statistique le commerce d'État, les transactions commerciales portant sur l'équipement et l'approvisionnement des forces armées, l'aide extérieure, le commerce de perfectionnement et de réparation, les transactions portant sur les navires et aéronefs neufs, l'énergie électrique et le gaz, les produits de la mer débarqués en provenance directe de la haute mer;
- Sont *exclus* de la statistique le trafic de transit direct, les importations et exportations temporaires, les transactions portant sur les navires et aéronefs usagés, l'avitaillement et les soutages pour navires et aéronefs, les monnaies métalliques ou fiduciaires et les matières d'or où le métal représente plus de 80 % de la valeur totale. Les transactions de faible importance peuvent également être exclues;

d) Les produits et catégories de produits sont définis et classés selon la *Classification Type pour le Commerce International (C.T.C.I.) Révisée**. Toutefois, le manque de place a obligé à abréger certaines désignations dans les tableaux.

e) La ventilation géographique se réfère aux pays d'origine/consommation (dernière destination connue). Les territoires statistiques de ces pays sont définis dans la nomenclature géographique de l'O.C.D.E., publiée à la fin du premier fascicule de cette série;

f) La nécessité de garder secrets certains renseignements à un niveau détaillé de la classification peut entraîner, pour quelques pays, l'existence de divergences entre les totaux calculés à divers niveaux d'agrégation.

(1) Des données sont également publiées pour la Yougoslavie qui est associée à certains travaux de l'O.C.D.E.

(2) Cf. page 4 pour la composition des zones géographiques.

(3) Le texte français de la liste des produits est encarté dans le fascicule 1 de chaque livraison trimestrielle.

BULLETINS STATISTIQUES DU COMMERCE EXTÉRIEUR : SÉRIES A, B et C

- La **Série A - Commerce total par pays** (trimestrielle) donne une vue d'ensemble du commerce total des pays de l'O.C.D.E. (sans ventilation par produits) décomposé par pays et zones d'origine et de destination.

  Les tableaux comportent une nomenclature géographique normalisée, et couvrent les quatre dernières années, les douze derniers trimestres et les seize derniers mois disponibles. Ils sont mis à jour par un supplément mensuel dans l'intervalle de deux parutions trimestrielles.

- La **Série B - Échanges par produits, Tableaux analytiques** (trimestrielle) est destinée à l'analyse générale de la structure des échanges des pays de l'O.C.D.E., individuellement et par groupes, selon les principales catégories de produits et les zones et pays partenaires les plus importants.

  Les catégories de produits, aussi bien que les pays et zones partenaires, suivent des nomenclatures normalisées, mais seuls les éléments significatifs apparaissent. La série paraît en six fascicules, dont chacun comprend les données relatives à plusieurs pays, dans l'ordre de leur réception.

- La **Série C - Échanges par produits, Résumé par marchés** (semestrielle) fournit des informations détaillées sur les échanges des pays de l'O.C.D.E. par principaux produits et pays partenaires. La série paraît en trois volumes, couvrant respectivement les échanges par principales catégories de produits (valeurs seules) et les échanges par groupes, sous-groupes et positions de la CTCI (quantités et valeurs, un volume consacré aux exportations et un aux importations).
  Les chiffres sont regroupés sous forme de tableaux synoptiques rassemblant les pays qui constituent le marché d'un produit déterminé, en tant que débouchés ou fournisseurs, aussi bien au sein de la zone O.C.D.E. que dans les transactions entre celle-ci et le reste du monde.

PRINCIPAUX INDICATEURS ÉCONOMIQUES

Cette publication mensuelle, qui tire parti des techniques les plus modernes de présentation statistique sous la forme de tableaux et de graphiques, est destinée à fournir une vue instantanée de l'évolution économique la plus récente des pays de l'O.C.D.E., ainsi qu'un ensemble de statistiques internationales illustrant la situation économique de la zone O.C.D.E. au cours des dernières années.

Les indicateurs retenus couvrent la comptabilité nationale, la production industrielle, les livraisons, stocks et commandes, la construction, les ventes au détail, la main-d'œuvre, les salaires, les prix, les finances intérieures et extérieures, les taux d'intérêt, les échanges et paiements. Des suppléments trimestriels contiennent des précisions sur les prix de détail et la production industrielle.

ANNUAIRES STATISTIQUES

- Les **Statistiques rétrospectives** (paraissant tous les deux ans) rassemblent en deux volumes des chiffres trimestriels et mensuels couvrant la dernière décennie, pour toutes les séries contenues respectivement dans les *Principaux Indicateurs Économiques* et leur supplément *Production industrielle.*

  Les deux volumes contiennent en outre des chiffres annuels pour une période plus longue, ainsi qu'un choix de taux de variation. Dans l'intervalle de deux parutions, ils sont tenus à jour par des suppléments encartés dans les *Principaux Indicateurs Économiques.*

- **Comptes Nationaux des pays de l'O.C.D.E.** (annuel) contient, pour chaque pays de l'O.C.D.E. et pour les groupes importants de pays Membres, les principaux agrégats de la comptabilité nationale, présentés sous une forme normalisée pour la dernière décennie (parfois une période plus longue).

  En outre, des tableaux supplémentaires présentent diverses mesures analytiques, telles que des triangles de croissance, des indices de prix et de volume, et le rapport de certaines composantes aux agrégats correspondants.

- **Statistiques de la population active** (annuel) donne, à partir de données normalisées, une vue d'ensemble de l'évolution de la main-d'œuvre et de l'emploi dans les pays de l'O.C.D.E. au cours de la dernière décennie.
  Les chiffres publiés concernent, en particulier, la population totale, les composantes de l'évolution démographique, la répartition par âge, la population active totale et civile, le chômage, ainsi que l'emploi (total et ventilé par branche d'activité et situation professionnelle, ainsi que par branche d'industrie dans le cas des salariés).

ÉTUDES ÉCONOMIQUES DE L'O.C.D.E.

L'Organisation examine, chaque année, la situation économique de chaque pays Membre ou associé, et détermine si la politique suivie favorise la croissance économique, un niveau élevé d'emploi, ainsi que l'équilibre interne et externe, tout en respectant les légitimes intérêts des autres pays.
Les résultats de cet examen paraissent dans les **Études Économiques,** qui les intègrent dans une analyse de l'évolution de la demande, de la production, des salaires et des prix et de la situation des marchés monétaires et des capitaux, et comportent en outre des prévisions globales pour l'année à venir.

ORGANISATION DE COOPERATION ET DE DEVELOPPEMENT ECONOMIQUES

OECD ECONOMIC OUTLOOK

Each July and December the OECD ECONOMIC OUTLOOK surveys the latest economic developments in the OECD area and, by means of an integrated set of quantitative forecasts, assesses future prospects. In addition, there are frequently special studies designed to assist the interpretation of economic trends.

PERSPECTIVES ECONOMIQUES

En juillet et décembre les PERSPECTIVES ECONOMIQUES DE L'OCDE donnent un aperçu général de l'évolution économique la plus récente dans l'ensemble de la zone OCDE et, au moyen d'une série de prévisions quantitatives intégrées, évaluent les perspectives. En supplément, cette publication contient fréquemment des études spéciales destinées à faciliter l'interprétation des tendances économiques.
